

**Join the Continental Divide Trail Alliance on October 8th, 2011 for a one day maintenance project on the CDT near Cuba, NM.**

This section was built 5-10 years ago and needs some light maintenance to keep it in shape. We will do light trimming, remove any dead and downed pinions blocking the trail, remove loose stones from the tread and rebuild cairns. This is a great one day opportunity for those new to trail work and seasoned veterans alike.

Continental Divide Trail Alliance partner project with the New Mexico Mountain Club

Easy to moderate, one day trip, Cabezon Peak Area, NM (BLM)

Elevation: 7,000'-8,000' / Availability: 15-20
