

**Back Country Trail
Design & Construction
Introductory Training Course
Cuba, NM**

June 27 & 28, 2011

The purpose of this course is to teach basic trail construction skills to community volunteers in Cuba, NM. Limit 20.

Training and our field “classroom” will be the Fisher Tract, recently dedicated as public open space by the Nacimiento Community Foundation.

The course will cover two full days:
Four hours of classroom discussion and twelve hours fieldwork.

Basic Course Outline

- I. The Principles of Sustainable Trails
- II. Better Trail Design
- III. Trail Construction
- IV. Site Safety
